

**THE PREMIER BRAND OF TAMPER EVIDENT SECURITY PRODUCTS**

## WHAT MAKES LABEL LOCK™ SO SPECIAL?

### IN-REGISTER TAMPER MESSAGE

In simple terms 'In Register' means that the tampered message 'OPENED' sits within the blue label area and will always appear as multiple **complete** words. By comparison, you can see in the picture on the right that most Tamper Evident Labels adopt a wallpaper style tamper message, which makes it very easy to replicate and produce them on a mass scale.

### HANDY DISPENSER BOX:

Label Lock™ Labels are sold in bespoke, protective dispenser boxes containing 250 labels on a reel. This results in easier storage and a lot less wastage. The labels always remain inside the protective box which prevents unnecessary loss and protects them against damage.

### HI-TACK ADHESIVE

Means that Label Lock™ labels will void on almost any surface; many more than standard 'security' materials.

### SEMI-TRANSPARENT MATERIALS

Meaning you can see through the label, which prevents anyone from trying to put a new label over the 'opened' remains of the old one

**MANUFACTURED BY:**

Mercian Labels Ltd., Unit 2, Plant Lane Business Park, Burntwood. WS7 3GN

## CLEAR BORDER CONTAINING TEXT

Our unique clear border design with text makes it virtually impossible for anyone to fraudulently replicate or try to replace the seal without leaving some evidence. A standard void label can be copied very easily and in many ways. One example is by importing readily available security materials cut to size and then simply overprinting them. This isn't possible with Label Lock™!

## SUB-SURFACE NUMBERING:

Means the numbers can't be changed without voiding the label itself. Every number is recorded by us, so we know when it was made and who it was made for

## COUNTERPARTS

or 'Receipt' labels are available in no-residue so an audit trail can be created easily - no need to rely on hand-copied numbers.
